VILLAGE NEWS

As the fall season is now upon us, it is exciting to see the kids get back to school and people gear up again after summer vacation. The Village of Beiseker sends their support to the students at the Beiseker School – Best for 2024!

The Village of Beiseker still has some water valve repair work to do (there are two valves in Beacon Heights and one by the Post Office) that need to be lowered and a replacement of the valve in the campground will take place after the camping season closes. In order to ensure stabilization of the road patches that were dug up for this work, we will pave these sections once the weather warms up next Spring/early Summer.

The overhaul of 9th Street road/underground infrastructure engineering study is moving along at schedule. By the end of 2024, we should have a detailed plan and estimated construction costs to do improvements on the first block (1st Avenue to 2nd Avenue) on 9th Street. Depending on the total plan for the project and available funding, we hope to start construction on this project as soon as possible.

We received updated reporting from the Rocky View Handibus organization this month. In case you are not aware, here is a description of the service provided: *Rocky View Regional Handibus (RVRH) provides handibus transportation (para-transit) for people whose disability or situation prevents them from accessing local supports with safety and dignity. Rocky View Bus provides transportation for medical, volunteer, recreational, education and basic living purposes (groceries, banking) in the local community. Our passengers include pre-schoolers, students, adults and seniors.* Beiseker contributed approximately \$4,000 this year as a member of Rocky View Handibus. We are pleased that rider membership and the number of trips used by our community continues to grow, making our contribution to the service worthwhile.

There are currently 4 new homes under construction in The Junction subdivision. Please help us welcome new residents to our Village as they arrive! Nelson Custom Homes and Creekwest Custom Homes are planning on opening office space in downtown Beiseker.

STATION MUSEUM

We're so pleased to share with you our new exhibit "Stories from the Small Town: Starring Beiseker." It's all about the ways Beiseker has impacted popular culture through film, TV, and music, and about how these industries also shape our lives. This is a new permanent exhibit for us, in museum-speak that means it has an expected lifetime of about 5 years. Our exhibits are never static though, as we're always looking for new ways to tell stories through artifacts. Come by and have a look. Our new exhibit is on the main floor of the museum and is free to visit Monday–Friday when the village office is open.

Since it's nearly Halloween, be sure to come in and see artifacts from the filming of *Ghostbusters: Afterlife*, including a ghost trap used in the film. Just don't let the ghost out while you're here.
